Professional Summary

Bilingual Clinical Psychologist with 10+ years of comprehensive experience across therapeutic and institutional settings managing complex human-behavior data, clinical diagnostics, and cross-functional teams. Professional experience in New York City provided the cultural nuance and bilingual fluency to serve diverse individuals and communities while working within global teams. Currently building a second specialization in Software Quality Assurance. Trained in manual, API, and automation testing through intensive programs and a hands-on project portfolio, bringing the same rigor, ethical judgment, and evidence-based mindset to software quality.

Core Competencies

- **Clinical Practice & Observation:** 10+ years of clinical practice across hospitals, forensics, primary care, and addiction networks, working with children, adolescents, adults, couples, and families, both individually and through group interventions and workshops. Integrative training spanning cognitive-behavioral and psychoanalytic frameworks, with genuine openness to multiple therapeutic approaches and evidence-based practice.
- **Psychodiagnosis & Assessment:** Comprehensive psychodiagnostic evaluation as a core strength, including forensic expert assessments of child abuse victims and expert testimony in court proceedings.
- **QA Methodologies & Testing Systems:** Rigorous execution of the Software Testing Life Cycle (STLC), from requirement analysis and test documentation control to exploratory testing charters, root cause analysis (RCA), and data-integrity auditing.
- **QA Tools & Automation:** Postman, Jira, TestRail, Trello, Git/GitHub, Browser DevTools; TypeScript + Playwright; Java + Selenium WebDriver (Page Object Model).
- **English Fluency:** Full professional proficiency (Hunter College, NYC); Spanish

native. Comfortable working, writing, and communicating with global teams entirely in English.

Technical QA Credentials & Portfolio

Advanced Engineering Education

- **QA Automation & Testing Summer Bootcamp** | Binary Studio Academy (Active Enrollment, 2026)
- **Diplomatura en Testing de Software** | Universidad Nacional de Córdoba & ICARO (In Progress, 2026)

Project Repositories & Audits

• Automated E2E QA Suite | OpenEMR

Playwright | TypeScript | Page Object Model (POM) | GitHub

- Architected an automated end-to-end regression testing suite mapped to complex clinical workflows, applying strict Page Object Model design patterns to isolate testing assertions from underlying UI layout locators.

• Technical API Data Audit | NHS Patient Demographic Service

Postman | Jira | JSON Schema Validation | API Contract Testing

- Executed a high-compliance data audit targeting sensitive patient demographic endpoints; built automated Postman testing collections validating complex payload logic, status codes, and strict schema compliance.

• Hilton Honors | End-to-End Web Quality Audit

Trello | Browser DevTools | Heuristic Evaluation | Defect Tracking

- Managed a full-lifecycle manual audit of global reservation and registration structures. Isolated a critical P1 internationalization (i18n) blocker using client-side Root Cause Analysis and mapped UX barriers across LATAM market segments.

Professional Psychology Experience

Clinical Psychologist | Private Practice, Argentina / Remote

[2021 – Present]

- Provide therapeutic support to a diverse client base, with a core focus on acculturation and the psychological processing of significant life shifts.
- Manage end-to-end patient care systems, from data-driven scheduling to high-integrity clinical documentation. Utilize digital platforms to record diagnostic coding (DSM-5, ICD-10) and treatment progress, ensuring precise data management for a diverse client base across remote and in-person settings.

Psychologist | Unidad de Atención Primaria de la Salud Itinerante

[July - December 2023]

- Provided psychological care for individuals, attending to 10-15 patients daily within a multidisciplinary team comprising a general doctor, social worker, psychologist, and public health agent.
- Enhanced patient care and streamlined healthcare delivery processes, playing an instrumental role in reducing patient wait times by 30% and increasing access to comprehensive health services for underserved communities.

Psychologist | Hospital Escuela de Salud Mental "El Sauce"

[July - December 2023]

- Created weekly recreational, leisure, and artistic workshops catering to individuals hospitalized with severe mental health challenges, with consistent attendance of over 20 participants per session.
- Developed the "Accompaniment Space" for family members and emotional references, providing a supportive network for those navigating the challenges of caring for loved ones with severe mental health issues.

Institutional Network Management | Plan Provincial de Adicciones

[2020 – 2022]

- Led the creation of an institutional resource guide, optimizing access to key information.
- Facilitated intersectoral collaboration, fostering the creation of networks and knowledge exchange.
- Established a permanent consultation space, providing a reference point for the community.
- Co-created a course in collaboration with SEDRONAR (national drug policy agency), addressing critical issues related to addictions.
- Promoted research and knowledge exchange through academic workshops.

Clinical Psychologist | Centro Especializado en Adicciones

[2019 – 2021]

- Collaborated with a team of mental health professionals to deliver comprehensive addiction treatment, conducting individual therapy sessions and providing family counseling for clients struggling with substance use disorders.
- Created a new service for families and patients who are assisted for the first time to provide them with emotional support and guidance. Explained the organization's services, policies, and procedures, answered questions, addressed concerns, and facilitated referrals to necessary resources.

Forensic Psychologist | Equipo de Abordaje del Abuso Sexual (EdeAAS)
[2017 – 2019]

- Specialized in child sexual abuse cases within a multidisciplinary team.
- Provided expert testimony in court proceedings.
- Conducted comprehensive psychological assessments of child victims utilizing evidence-based assessment tools and techniques.

Clinical & Community Psychologist | Centro de Atención Primaria de la Salud
[2017 – 2020]

- Established a walk-in service open to the community, offering counseling and guidance to parents, couples, families, children, adolescents, and adults, scheduling over 1,000 follow-up appointments per year.
- Implemented Prevention and Health Promotion Actions in Schools, designing interventions to raise awareness about gender-based violence. Delivered a program focused on anxiety reduction, achieving a 100% satisfaction rate among respondents who reported acquiring practical skills to manage anxiety effectively.

Education & Training Summary

• **Bachelor's & Master's Degree in Psychology**

Universidad Nacional de San Luis (2008-2015).

WES-evaluated U.S. equivalency: 160 semester credits, GPA 3.79 (Ref. 6464279).

• **Master's Studies in Psychoanalysis** | Universidad del Aconcagua (In progress).

• **English for Professional Purposes** | Hunter College, New York City (Completed).

• **Additional Specialist Training:** Drama Therapy (UNCuyo, 2018-2022); Crisis Therapy & Psychological First Aid (2021); Consumption Problems (2017); Childhood & Adolescence (APdeBA, 2020); Toxicology & Alcoholism (2020); Body & Community (UNGS, 2021).
